

RESIDENTIAL KITCHEN

Erica B. Smith Architect, Nazak Savitt Interiors

BLUFF VIEW KITCHEN

The architect and interiors designers overhauled a traditional kitchen from the 1980s into a “clean-lined, slightly industrial space,” removing a wall of cabinetry and replacing it with “a series of casement windows, facing west to bathe the room in warm afternoon light. The black mullions and frames blend into the landscape beyond.”

“The large openings are successfully in service of natural light and view of the surrounding landscape.”

— Steven Harris (Juror)
